## EDUCATION

---

<b>Sir Syed University</b> <i>Bachelor of Science in Software Engineering</i>	Karachi, PK 2022 – 2026
<b>Army Public College</b> <i>Pre-Engineering</i>	Karachi, PK 2021 – 2022

## EXPERIENCE

---

<b>Techverin</b> <i>Software Developer Intern</i>	Aug 2024 – Present <i>Malé, MV (Remote)</i>
<ul style="list-style-type: none"><li>Contributed to feature enhancements and performed maintenance (bug fixes, feature updates) for an inventory management system using React and Go.</li><li>Connected frontend components with backend APIs to improve functionality and user interaction.</li><li>Expanded backend capabilities by adding new features while learning and applying Go for API integration and database management.</li></ul>	
<b>Freelance</b> <i>Software Developer</i>	Dec 2022 – Present <i>Karachi, PK</i>
<ul style="list-style-type: none"><li>Developed multiple Student Portal mobile apps for different clients.</li><li>Connected multiple backend services to Flutter apps including Google Maps API and Firebase</li><li>Developed multiple web apps including a current work-in-progress self-hosted Inventory Management System created in Next.js</li></ul>	

## PROJECTS

---

<b>Kaku</b>   <i>Nuxt, Vue, JS</i>	Aug 2024
<ul style="list-style-type: none"><li>Designed and developed a diagramming tool with hand-drawn visuals to facilitate intuitive, sketch-like diagram creation.</li><li>Implemented features such as shape drawing, freehand drawing, and object manipulation with a focus on providing a smooth, user-friendly interface.</li><li>Utilized canvas library to create a scalable and interactive diagram editor for learning purposes.</li></ul>	
<b>Urbane</b>   <i>Next.js, React, Typescript</i>	Feb 2024
<ul style="list-style-type: none"><li>Developed a full dashboard template for free use.</li><li>Added various charts to visualize different metrics.</li><li>Added data tables with sort, filter and pagination.</li><li>Complete dark mode and light mode theming.</li></ul>	
<b>Siminventory</b>   <i>Next.js, React, Typescript</i>	Jan 2024
<ul style="list-style-type: none"><li>Developed a full Inventory Management System with Next.js</li><li>Added functionality to generate PDFs for multiple provided services.</li><li>Developed both simple and complex forms for many different modules.</li><li>Complete Auth system with Auth0.</li><li>Fully self-hosted and self-managed.</li></ul>	
<b>Maestro</b>   <i>Next.js, React, Typescript</i>	Jan 2024
<ul style="list-style-type: none"><li>Developed a full stylish and modern looking e-commerce template.</li><li>Added full cart functionality.</li><li>Fresh data pulled directly from third-party api.</li><li>Almost fully server-side rendered.</li></ul>	
<b>Himotoku</b>   <i>Flutter, Dart, Rust</i>	Mar 2023
<ul style="list-style-type: none"><li>Developed a manga reading application which can efficiently scrape from multiple sources.</li><li>Implemented some crucial image resizing functionality by using Rust</li><li>Download and auto update from source functionality and local database for a complete offline experience.</li><li>Used Isar for local database functionality.</li><li>Complete dark and light mode theming with different accent colors.</li></ul>	

## TECHNICAL SKILLS

---

**Languages:** Dart, Java, Python, Rust, SQL (Postgres/MySQL), JavaScript/TypeScript, HTML/CSS, Go

**Frameworks:** Flutter, React, Node.js, Next.js, Vue, Svelte, Nuxt

**Developer Tools:** Git, Docker, VS Code, Visual Studio, PyCharm, IntelliJ, Eclipse, Webstorm
